

## REFERENCE NUMERALS LIST

|    |       |  |
|----|-------|--|
| 5  | As    | Architecture services  |
|    | BHS   | Basic hardware services  |
|    | OSS   | Operating system services  |
|    | BSP   | Board support package  |
|    | CPU   | Central processing unit  |
| 10 | CPU-R | CPU-register   |
|    | HD    | Hard disk  |
|    | HR    | Hardware resources   |
|    | IC1   | Part of the interrupt controller driving<br>the interrupts for the POS |
| 15 | IC2   | Part of the interrupt controller driving<br>the interrupts for the SOS |
|    | IL    | Idle loop  |
|    | IRC   | Interrupt controller   |
|    | K     | Kernel   |
| 20 | POS   | Primary operating system   |
|    | PC    | Primary operating system context                                       |
|    | PM1   | Physical memory allocated to the POS                                   |
|    | PM2   | Physical memory allocated to the SOS                                   |
|    | RAM   | Random access memory   |
| 25 | SOS   | Secondary operating system   |
|    | SOS-T | Driver for loading the secondary operating<br>system                   |
|    | SC    | Secondary operating system context                                     |
|    | MC    | Memory context   |
| 30 | SD-T  | Memory driver area   |
|    | ST    | System timer   |

|   |     |   |
|---|-----|---|
|   | T1  | Primary operating system driver                 |
|   | T2  | Secondary operating system driver               |
|   | TA  | Tunnel area                                     |
|   | TC  | Tunnel context                                  |
| 5 | AHP | Primary operating system additional<br>hardware |
|   | AHS | Secondary operating system additional           |
